Unmanned Systems
ICT

**TRADOC, US Army
Unmanned System for Land Warfare (USLW)
Integrated Concept Team (ICT)
Update**

**Presented to
Joint Robotics Working Group
16 May 2000
By
Mr. Robert Dodd
Battle Lab Integration, Technology Directorate
Deputy Chief of staff Combat Development
HQ Training & Doctrine Command**

ICT Action Plan

Building Blocks Approach

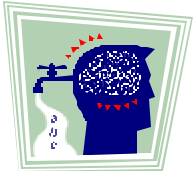

Integration Plan

Horizontal Integration
of Future Unmanned Systems Plans

CD/BL Candidate Generic System
Identification from 5 May 00 Tasker

USLW ICT Future Capabilities
Revise as required

Concept of Employment – White Paper
Needs updating with current O&Os

Working

**Done, but
need updates**

CD/BL Database Input Process

CD/BL Candidate Generic System
Identification from 5 May 00 Tasker

Reference documents at
FTP://150.184.68.24

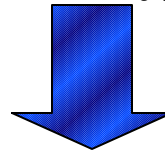

- **Encourage board organizational review:
Seeking competing ideas/opportunities**
- **Review FC/AFOs**
- **Determine which AFOs apply**
- **Use government technology developers
reference files/POCs as required**
- **Consolidate organizational inputs – central POC**
- **Seek organization scrub approval of ideas**
- **Fill out database input form**

AFO is the key, the capability needed

CD/BL Database Input Process

Select AFO, link to: mission, task or function, also link to AUTL
Select Force(s), FUE, System type, size and degree of control

Describe the UGV, UAV, US, or UM platform

Describe necessary mission equipment for the platform

JPO has a demonstration of this database form at this meeting

Select the Enablers that apply
Provide POC information
Insert any desired comments
